Providing for branch campuses.

House Committee on Higher Education

**Majority Report:** Do pass with amendments. (9)  
Signed by Representatives Jacobsen, Chair; Van Luven, Ranking Republican Member; Fraser, Heavey, Jesernig, H. Myers, Prince, Rector and Wood.

**Minority Report:** Without recommendation. (4)  
Signed by Representatives Spanel, Vice Chair; Basich, Doty and Inslee.

**House Staff:** Susan Hosch (786-7120)

**AS PASSED SENATE**

**BACKGROUND:**

In 1985, the Higher Education Coordinating Board was created and charged with the responsibility of preparing a comprehensive master plan. By statute, the plan was to include assessments of the state's higher education need. The assessments could include, among other things, the basic and continuing needs of various age groups; business and industrial needs for a skilled workforce; analyses of demographic, social, and economic trends; and the needs of recent high school graduates and placebound adults. The Board was encouraged to consider the needs of residents of all geographic regions, but to apply its initial priorities to heavily populated areas underserved by public institutions.

The Board completed its "Master Plan for Higher Education" in 1987. In the plan, the Board found that a substantial underserved, placebound population does exist in the state's large urban areas. The Board determined that additional upper-division and graduate level programs should be provided to the citizens living in or near the central Puget Sound, Spokane, Vancouver, and the Tri-Cities. During 1988, the Board added Yakima to the list of areas needing additional upper-division and graduate programs. The Board also recommended that both traditional modes of delivery and telecommunications should be employed to serve the educational needs of these areas.

The Board assigned to the University of Washington the responsibility for ensuring the expansion of upper-division and graduate programs in the Puget Sound area. Washington State University was assigned the responsibility for providing upper-division and graduate programs to Vancouver and the Tri-Cities. Washington State University and Eastern Washington University were jointly assigned the responsibility for serving the upper-division and graduate program needs of the Spokane area. Central Washington University
was assigned the responsibility for providing additional upper-division programs to the citizens of the Yakima area.

The University of Washington and Washington State University were directed to develop plans to serve unmet needs and to meet their assigned program responsibilities through the operation of branch campuses in their service areas.

SUMMARY:

The Legislature endorses the assignments of responsibility to provide upper-division and graduate programs that the Higher Education Coordinating Board has made to various institutions of higher education. The Legislature also endorses the creation of branch campuses for the University of Washington and Washington State University.

It is legislative intent that, at the same time that funding is approved for serving these areas, enrollment lids at existing baccalaureate institutions should be raised at the upper-division level, to the extent that doing so will increase participation rates in underserved areas of the state.

The University of Washington is directed to ensure the expansion of upper-division and graduate programs in the central Puget Sound area. The University will meet that responsibility through the operation of at least two branch campuses: one campus to be located in the Bothell-Woodinville area, and one campus to be located in the Tacoma area.

Washington State University is directed to provide upper-division and graduate programs to the citizens of the Tri-Cities and Southwest Washington areas. The University will meet those responsibilities through the operation of a branch campus located in each of those areas.

Washington State University and Eastern Washington University are jointly responsible for providing upper-division and graduate programs to the Spokane area. Washington State University is directed to meet its obligation through the operation of a branch campus in the Spokane area. Eastern Washington University will meet its responsibility through co-located programs and facilities in Spokane.

Central Washington University is responsible for providing upper-division and graduate programs to the citizens of the Yakima area.

Each of these universities shall carry out their responsibilities under rules or guidelines adopted by the Higher Education Coordinating Board. Through its rules and guidelines, the Board must ensure a collaborative partnership between the community colleges and four-year institutions. In addition, before approving an institutional request to acquire facilities in one of the assigned areas, the Board must explore a variety of creative and cost-effective ways to serve the educational needs of that area.

The Spokane Intercollegiate Research and Technology Institute is created. The Institute will be operated and administered through a cooperative agreement as a multidimensional education and research center. Washington State University, Eastern Washington University and the community colleges of Spokane will offer programs through the Institute. Gonzaga University and Whitworth College may participate as full partners in any activities at the Institute. Washington State University will be the Institute’s fiscal and administrative agent.
The coordination of programs and activities at the Institute is subject to the authority of the Spokane Joint Center for Higher Education. The establishment of programs, and the lease, purchase and construction of sites and facilities is subject to the approval of the Higher Education Coordinating Board.

The Higher Education Coordinating Board will administer the Educational Opportunity Grant Project. This demonstration project will be designed to permit needy, placebound students to complete their upper division coursework at any eligible accredited college or university. Students living in and near the following areas may participate: the central Puget Sound, Yakima, Spokane, the Tri-Cities, and Vancouver. Each participating student may receive up to $2,500, not to exceed the student's demonstrated financial need.

Authorization for the programs, increases, and facilities described in the bill, are subject to legislative appropriation.

A statute creating the Southwest Joint Center for Education is repealed. The Center, operated by Washington State University, The Evergreen State College, and Clark and Lower Columbia Community Colleges, is designed to serve the area's educational needs.

Fiscal Note: Not Requested.

SENATE BILL REPORT

SB 6095

BY Senators Benitz, Saling, Bluechel, Cantu, Smitherman, Stratton, Gaspard, Patterson, Bauer, von Reichbauer, Hayner, Smith, Rasmussen, West, Thorsness, Bailey, Johnson and Nelson

Providing for branch campuses.

Senate Committee on Higher Education

Senate Hearing Date(s): March 23, 1989

Majority Report: Do pass.
Signed by Senators Saling, Chairman; Patterson, Vice Chairman; Bauer, Cantu, Smitherman, Stratton, von Reichbauer.

Senate Staff: Scott Huntley (786-7421)
April 17, 1989

House Committee on Higher Education

AS PASSED SENATE, MARCH 27, 1989

BACKGROUND:

The Washington State master plan for higher education, adopted by the Higher Education Coordinating Board and endorsed by the Legislature in 1988, recommends the creation of two branch campuses of the University of Washington and three branch campuses of Washington State University.

The master plan recommends the branch campuses of the University of Washington be located in the Tacoma area and in the Bothell-Woodinville area.

The master plan recommends the branch campuses of Washington State University be located in the Spokane area, the southwest Washington area, and in the Tri-cities area.

SUMMARY:

The Board of Regents of the University of Washington is given the authority to establish branch campuses in the Tacoma and Bothell-Woodinville areas. The campuses will be designed to meet the need for upper-division and graduate programs in these areas, with emphasis on serving the needs of placebound students.

The Board of Regents of Washington State University is given the authority to establish branch campuses in Spokane, the southwest Washington area, and the Tri-cities area. The Spokane branch campus will be designed to meet the need for upper-division and graduate...
education programs, with emphasis on graduate and research programs. The southwest Washington branch campus shall be designed to meet the need for upper-division and graduate education programs in the area. The campus shall replace the southwest Washington Joint Center for Education. The Tri-cities branch campus shall be designed to continue and improve upon upper-division and graduate education programs. The campus shall replace the Tri-cities University Center.

The method of organization, governance and administration of the branch campuses is to be proposed by the appropriate governing board and subject to the approval of the Higher Education Coordinating Board and the Legislature. This provision does not apply to programs existing prior to the effective date of this act.

The governing boards are to adopt policies regarding faculty, staff and students appropriate to the missions of the branch campuses.

Admission standards for branch campuses will be adopted in accordance with policies adopted by the Higher Education Coordinating Board.

The level of tuition fees charged to students at branch campuses is to be established by the Higher Education Coordinating Board in cooperation with the governing institutions. The tuition charges are to be consistent with those established for graduate and undergraduate students at state four-year institutions.

The Higher Education Coordinating Board will review and approve programs at branch campuses consistent with the procedures established for off-campus programs.

The University of Washington and Washington State University, respectively, are to establish a local advisory committee in each area where a branch campus is located.

This bill is null and void unless specifically referenced in the omnibus appropriations act.

Appropriation: none

Revenue: none

Fiscal Note: requested March 23, 1989

Effective Date: July 1, 1989

Senate Committee - Testified: No one

HOUSE AMENDMENTS:

The language of the Senate bill is stricken and the following provisions are inserted.

The Legislature endorses the assignments of responsibility to provide upper-division and graduate programs that the Higher Education Coordinating Board has made to various institutions of higher education. The Legislature also endorses the creation of branch campuses for the University of Washington and Washington State University.
It is legislative intent that, at the same time funding is approved, enrollment lids at existing baccalaureate institutions should be raised at the upper-division level, to increase participation rates in underserved areas of the state.

The University of Washington is directed to ensure the expansion of upper-division and graduate programs in the central Puget Sound area. The University will operate at least two branch campuses: one campus to be located in the Bothell-Woodinville area, and one campus to be located in the Tacoma area.

Washington State University is directed to provide upper-division and graduate programs to the citizens of the Tri-Cities and southwest Washington areas. The University will operate a branch campus located in each of those areas. The Tri-cities branch campus shall replace and supersede the Tri-cities University Center. All land, facilities, equipment, and personnel of the Tri-cities University Center shall be transferred from the University of Washington to Washington State University.

The Spokane Intercollegiate Research and Technology Institute is created. The institute will be operated as a multi-institutional education and research center, housing appropriate programs conducted in Spokane under the authority of Washington State University, Eastern Washington University and the community colleges of Spokane. Gonzaga University and Whitworth College may participate as full partners in any academic and research activities of the institute.

The Higher Education Coordinating Board will administer a demonstration project to provide educational opportunity grants to permit students in areas served by branch campuses to complete their upper-division coursework at any accredited independent baccalaureate institution of higher education. Each participating student may receive up to $2,500 per academic year. In order to be eligible for this program, students must be needy placebound residents of the state of Washington and have completed the associate of arts degree or its equivalent.

Washington State University and Eastern Washington University are jointly responsible for providing upper-division and graduate programs to the Spokane area. Washington State University is directed to operate a branch campus in the Spokane area. Eastern Washington University will meet its responsibility through co-located programs and facilities in Spokane.

Central Washington University is responsible for providing upper-division and graduate programs to the citizens of the Yakima area.

Each of these universities shall carry out their responsibilities under rules or guidelines adopted by the Higher Education Coordinating Board. Through its rules and guidelines, the board must ensure a collaborative partnership between the community colleges and four-year institutions. In addition, before approving an institutional request to acquire facilities in one of the assigned areas, the board must explore a variety of creative and cost-effective ways to serve the educational needs of that area.

Authorization for the programs, increases, and facilities described in the bill, are subject to legislative appropriation.

A statute creating the Southwest Joint Center for Education is repealed. The center, operated by Washington State University, The Evergreen State College, and Clark and Lower Columbia Community Colleges, is designed to serve the area’s educational needs.
SYNOPSIS AS ENACTED

BACKGROUND:

The Washington State master plan for higher education, adopted by the Higher Education Coordinating Board and endorsed by the Legislature in 1988, recommends the creation of two branch campuses of the University of Washington and three branch campuses of Washington State University.

The master plan recommends the branch campuses of the University of Washington be located in the Tacoma area and in the Bothell-Woodinville area.

The master plan recommends the branch campuses of Washington State University be located in the Spokane area, the southwest Washington area, and in the Tri-cities area.

The master plan also recommends that Central Washington University provide increased upper division service to the Yakima area.

SUMMARY:
The Legislature endorses the assignments of responsibility to provide upper-division and graduate programs that the Higher Education Coordinating Board has made to various institutions of higher education. The Legislature also endorses the creation of branch campuses for the University of Washington and Washington State University.

It is legislative intent that, at the same time funding is approved, enrollment lids at existing baccalaureate institutions should be raised at the upper-division level, to increase participation rates in underserved areas of the state.

The University of Washington is directed to ensure the expansion of upper-division and graduate programs in the central Puget Sound area. The University will operate at least two branch campuses: one campus to be located in the Bothell-Woodinville area, and one campus to be located in the Tacoma area.

Washington State University is directed to provide upper-division and graduate programs to the citizens of the Tri-Cities and southwest Washington areas. The University will operate a branch campus located in each of those areas. The Tri-cities branch campus shall replace and supersede the Tri-cities University Center. All land, facilities, equipment, and personnel of the Tri-cities University Center shall be transferred from the University of Washington to Washington State University.

The Spokane Intercollegiate Research and Technology Institute is created. The institute will be operated as a multi-institutional education and research center, housing appropriate programs conducted in Spokane under the authority of Washington State University, Eastern Washington University and the community colleges of Spokane. Gonzaga University and Whitworth College may participate as full partners in any academic and research activities of the institute.

The Higher Education Coordinating Board will administer a demonstration project to provide educational opportunity grants to permit students in areas served by branch campuses to complete their upper-division coursework at any accredited independent baccalaureate institution of higher education. Each participating student may receive up to $2,500 per academic year. In order to be eligible for this
program, students must be needy placebound residents of the state of Washington and have completed the associate of arts degree or its equivalent.

Washington State University and Eastern Washington University are jointly responsible for providing upper-division and graduate programs to the Spokane area. Washington State University is directed to operate a branch campus in the Spokane area. Eastern Washington University will meet its responsibility through co-located programs and facilities in Spokane.

Central Washington University is responsible for providing upper-division and graduate programs to the citizens of the Yakima area.

Each of these universities shall carry out their responsibilities under rules or guidelines adopted by the Higher Education Coordinating Board. Through its rules and guidelines, the board must ensure a collaborative partnership between the community colleges and four-year institutions. In addition, before approving an institutional request to acquire facilities in one of the assigned areas, the board must explore a variety of creative and cost-effective ways to serve the educational needs of that area.

Authorization for the programs, increases, and facilities in this act are subject to legislative appropriation.

A statute creating the Southwest Joint Center for Education is repealed.

CERTIFICATE

I, Gordon A. Golob, Secretary of the Senate of the State of Washington do hereby certify that the attached is enrolled Senate Bill No. 6095 as passed by the Senate and the House of Representa-
tives on the dates hereon set forth.

Secretary of the Senate
AN ACT Relating to branch campuses; amending RCW 28B.25.020; adding new sections to Title 28B RCW; adding a new section to chapter 28B.10 RCW; adding new sections to chapter 28B.80 RCW; creating a new section; and repealing RCW 28B.30.510.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. The legislature finds that the benefits of higher education should be more widely available to the citizens of the state of Washington. The legislature also finds that a citizen's place of residence can restrict that citizen's access to educational opportunity at the upper division and graduate level.

Because most of the state-supported baccalaureate universities are located in areas removed from major metropolitan areas, the legislature finds that many of the state's citizens, especially those citizens residing in the central Puget Sound area, the Tri-Cities, Spokane, Vancouver, and Yakima, have insufficient and inequitable access to upper-division baccalaureate and graduate education.

This lack of sufficient educational opportunities in urban areas makes it difficult or impossible for place-bound individuals, who are unable to relocate, to complete a baccalaureate or graduate degree. It also exacerbates the difficulty financially needy students have in attending school, since many of those students need to work, and work is not always readily available in some communities where the baccalaureate institutions of higher education are located.

The lack of sufficient educational opportunities in metropolitan areas also affects the economy of the underserved communities. Businesses benefit from access to the research and teaching capabilities of institutions of higher education. The absence of these institutions from some of the state's major urban centers prevents beneficial interaction between businesses in these
1 communities and the state's universities.
2 The Washington state master plan for higher education, adopted by
3 the higher education coordinating board, recognizes the need to
4 expand upper-division and graduate educational opportunities in the
5 state's large urban centers. The board has also attempted to provide
6 a means for helping to meet future educational demand through a
7 system of branch campuses in the state's major urban areas.
8 The legislature endorses the assignment of responsibility to
9 serve these urban centers that the board has made to various
10 institutions of higher education. The legislature also endorses the
11 creation of branch campuses for the University of Washington and
12 Washington State University.
13 The legislature recognizes that, among their other
14 responsibilities, the state's comprehensive community colleges share
15 with the four-year universities and colleges the responsibility of
16 providing the first two years of a baccalaureate education. It is
17 the intent of the legislature that the four-year institutions and the
18 community colleges work as cooperative partners to ensure the
19 successful and efficient operation of the state's system of higher
20 education. The legislature further intends that the four-year
21 institutions work cooperatively with the community colleges to ensure
22 that branch campuses are operated as models of a two plus two
23 educational system.
24 NEW SECTION. Sec. 2. A new section is added to chapter 28B.80
25 RCW to read as follows:
26 It is the intent of the legislature that, at the same time
27 additional capital or operating funds are approved for the purposes
28 of sections 3 through 7 of this act, enrollment lids at existing
29 baccalaureate institutions of higher education should be raised at
30 the upper-division level insofar as doing so would increase
31 participation rates in underserved areas.
32 NEW SECTION. Sec. 3. The University of Washington is
33 responsible for ensuring the expansion of upper-division and graduate
34 educational programs in the central Puget Sound area under rules or
35 guidelines adopted by the higher education coordinating board. The
Sec. 7

1 University of Washington shall meet that responsibility through the
2 operation of at least two branch campuses. One branch campus shall
3 be located in the Tacoma area. Another branch campus shall be located
4 in the Bothell-Woodinville area.

NEW SECTION. Sec. 4. Washington State University is responsible
2 for providing upper-division and graduate level higher education
7 programs to the citizens of the Tri-Cities area, under rules or
8 guidelines adopted by the higher education coordinating board.
9 Washington State University shall meet that responsibility through
10 the operation of a branch campus in the Tri-Cities area. The branch
11 campus shall replace and supersede the Tri-cities university center.
12 All land, facilities, equipment, and personnel of the Tri-cities
13 university center shall be transferred from the University of
14 Washington to Washington State University.

NEW SECTION. Sec. 5. Washington State University is responsible
16 for providing upper-division and graduate level higher education
17 programs to the citizens of the southwest Washington area, under
18 rules or guidelines adopted by the higher education coordinating
19 board. Washington State University shall meet that responsibility
20 through the operation of a branch campus in the southwest Washington
21 area.

NEW SECTION. Sec. 6. Washington State University and Eastern
23 Washington University are responsible for providing upper-division
24 and graduate level programs to the citizens of the Spokane area,
25 under rules or guidelines adopted by the higher education
26 coordinating board. Washington State University shall meet its
27 responsibility through the operation of a branch campus in the
28 Spokane area. Eastern Washington University shall meet its
29 responsibility through the operation of co-located programs and
30 facilities in Spokane.

NEW SECTION. Sec. 7. Central Washington University is
32 responsible for providing upper-division and graduate level higher
33 education programs to the citizens of the Yakima area, under rules or
34 guidelines adopted by the higher education coordinating board.
Sec. 8

NEW SECTION. Sec. 8. A new section is added to chapter 28B.80 RCW to read as follows:

In rules and guidelines adopted for purposes of this act, the higher education coordinating board shall ensure a collaborative partnership between the community colleges and the four-year institutions. The partnership shall be one in which the community colleges prepare students for transfer to the upper-division programs of the branch campuses.

NEW SECTION. Sec. 9. A new section is added to chapter 28B.80 RCW to read as follows:

Before approving any institutional request to acquire facilities in an area assigned in sections 3 through 7 of this act, the higher education coordinating board shall ensure that creative and cost-effective methods of serving the needs of each assigned area are considered, including but not limited to:

(1) Exploring the possibility of time-sharing existing college or university facilities for instructional and administrative purposes;
(2) Using rented facilities; and
(3) Utilizing telecommunication technology.

NEW SECTION. Sec. 10. A new section is added to chapter 28B.10 RCW to read as follows:

(1) The Spokane intercollegiate research and technology institute is hereby created.
(2) The institute shall be operated and administered as a multi-institutional education and research center, housing appropriate programs conducted in Spokane under the authority of Washington State University, Eastern Washington University, and the community colleges of Spokane. Gonzaga University and Whitworth College may participate as full partners in any academic and research activities of the institute. Washington State University shall act as administrative and fiscal agent for the institute.
(3) The institute shall be operated and administered through a cooperative arrangement of the institutions of higher education participating in the institute.
(4) The institute shall house education and research programs

ESB 6095
specifically designed to meet the needs of the greater Spokane area.

(5) The coordination of programs and activities at the institute shall be subject to the authority of the Spokane joint center for higher education under RCW 28B.25.020.

(6) The establishment of any education or research programs at the institute and the lease, purchase, or construction of any site or facility for the institute shall be subject to the approval of the higher education coordinating board pursuant to RCW 28B.80.340.

Sec. 11. Section 98, chapter 370, Laws of 1985 and RCW 28B.25.020 are each amended to read as follows:

(1) The joint center for higher education shall coordinate all undergraduate and graduate degree programs, and all other seminars, courses, and programs of any type offered in the Spokane area by Washington State University and by Eastern Washington University outside of its Cheney campus. The joint center for higher education shall not coordinate the intercollegiate center for nursing.

(2) The joint center for higher education shall coordinate the following higher education activities in the Spokane area outside of the Eastern Washington University Cheney campus:

(a) Articulation between lower division and upper division programs;

(b) The participation of Washington State University in its joint engineering program with Gonzaga University and in its joint engineering management program with Eastern Washington University and Gonzaga University; (and)

(c) All contractual negotiations between public and independent colleges and universities; and

(d) Programs offered through the intercollegiate research and technology institute created by section 10 of this act.

(3) The participating institutions in the joint center for higher education shall maintain jurisdiction over the content of the course offerings and the entitlement to degrees.

(4) Disputes regarding which programs are to be coordinated by the joint center for higher education shall be arbitrated by the (council-for-postsecondary-education) higher education coordinating board or its successor agency. The decision of the arbitrating
Sec. 11
agency shall be binding.

NEW SECTION. Sec. 12. A new section is added to chapter 28B.80 RCW to read as follows:
Eligible students residing in the areas to be served by the branch campuses created by sections 3 through 7 of this act may participate in a demonstration project administered by the higher education coordinating board. The educational opportunity grant project will be designed to permit the students to complete their upper division coursework at any eligible accredited baccalaureate institution of higher education, as defined in RCW 28B.10.802(1) and as further identified by the board. Each participating student may receive up to two thousand five hundred dollars per academic year, not to exceed the student's demonstrated financial need, for that coursework.

NEW SECTION. Sec. 13. A new section is added to chapter 28B.80 RCW to read as follows:
In order to be eligible for the demonstration project outlined in section 12 of this act, students must be placebound residents of the state of Washington who are needy as defined in RCW 28B.10.802(3), and have completed the associate of arts degree or its equivalent.

NEW SECTION. Sec. 14. Authorization for the programs, increases, and facilities described in this act is subject to legislative appropriation.

NEW SECTION. Sec. 15. Sections 3 through 7 and 14 of this act are each added to Title 28B RCW.

NEW SECTION. Sec. 16. Section 13, chapter 72, Laws of 1983 1st ex. sess., section 1, chapter 408, Laws of 1985 and RCW 28B.30.510 are each repealed.
Passed the Senate May 10, 1989.

President of the Senate.

Passed the House May 10, 1989.

Speaker of the House

Approved May 31, 1989

Governor of the State of Washington
by Senators Benitz, Saling, Bluechel, Cantu, Smitherman, Stratton, Gaspard, Patterson, Bauer, von Reichbauer, Hayner, Smith, Rasmussen, West, Thorsness, Bailey, Johnson and Nelson

Providing for branch campuses.
